What Arthrogen Plus™ Marine Collagen contains

Each Arthrogen Plus™ sachet contain 10g of hydrolyzed Japanese Marine Collagen

Other ingredients are Glucosamine, Methyl Sulfonyl Methane, Chondroitin Sulphate, Calcium Gluconate, L-Leucine, L-Histidine, L-Lysine, L-Isoleucine, L-Methionine, L-Phenylalanine, L-Threonine L-Tryptophan, L-Valine, Ashwagandha Root Extract, Decosahexaenoic Acid, Cranberry Fruit Extract, Vitamin C, Boswellia Serrata Gum Resin Extract, Hyaluronic Acid, Curcumin, Magnesium, Zinc, Copper, Chromium, Manganese, Vitamin B5, Vitamin K1, Vitamin D3, Vitamin B12, and Vitamin B9.

Collagen has 18 amino acids with triple helix subunits **Proline Hydroxyproline** and **Glycine**.

It has a unique sequence of amino acids specific to collagen fiber and critical to formation of collagen

Clinical studies with collagen have proven to

"Directly increase the proliferation of fibroblast (i.e., collagen synthesizing cells)

"Be a direct substrate for skin tissue healing and regeneration

"Protect the skin from photo-ageing effects of UV-B radiation

"Protect skin from premature ageing

Collagen has a very low molecular weight which makes it easy to be absorbed and highly bioavailable to repair and rebuild damaged collagen tissue.
